Dear Mr. Bowman:

Shared Sites, LLC has received and reviewed several letters of concern written to the KY PSC concerning Case 2007-00452 (Burnside Island). The main, common point of these letters is the fact that there is an existing tower very close to the location being proposed for the new tower.

It is the policy of Shared Sites and its Client, American Cellular, to explore co-location opportunities whenever possible. In this case however the existing tower that is in the proximity only affords a potential antenna height of 240'. American Cellular requires 280' of antenna height. Having determined that the existing tower would not meet American cellular's needs, it was felt that the visual impact would be minimized by positioning the proposed tower as close as possible to the existing tower.

Very truly yours,

A handwritten signature in black ink, appearing to read 'D. B. Jantzi'.
